EXPERIENCE

eBizAutos

2007 – 2018

UI/UX CREATIVE DIRECTOR

2016 – 2018

- Supervise production of projects for both internal and external clients and be the go-to for any questions on all Creative Design/Development/Timeline issues from the Support and Sales teams.
- Collaborate with various departments to design marketing assets such as branding, infographics, communications, presentations, motion, video, environmental, print and digital.
- Teams with project managers to create a production budget and ensure the content is delivered within budget and to clients' expectations.
- Organize and manage the workflow of the department to ensure day-to-day tactical items are executed on, and strategic high impact work is developed.
- Assist with digital asset management process and partner with the Asset Management team, to ensure assets are reviewed, stored, and securely managed.
- Work with team to provide job assignment/scope and workload balancing to ensure that the project objectives, budgets, and timelines can be met.
- Presented ideas to stakeholders iterating from rough concepts to detailed prototypes to final visual designs
- Assume overall User Interface design & development of Web applications/ Web Apps, incorporating usability; comprehensive workflow, applying standards, using various tools to create graphical interfaces for web-based; rich client; and thick client applications.

UI/UX SENIOR DESIGNER

2013 – 2016

- Redesigned the entire front-end of the company's nine-year-old website making a more responsive website platform increased with the lead generation of 31%.
- Collaborated with agile, multi-disciplinary teams to evaluate the feasibility of proposed features and create phased approaches to development.
- Responsible for collaborating with managers in developing and communicating industry-leading digital creative concepts while balancing strategic development with online business objectives executing them from start to finish.
- Held creative leadership role on internal branding projects as well as for some of the nation's largest automotive groups.
- Trained and mentored junior-level designers ensuring they were up-to-date with the latest design techniques and coding practices.

WEB & GRAPHIC DESIGNER

2007 – 2013

- Responsible for designing and developing web pages and interactive marketing materials such as banner ads, landing pages, buttons, online promotions, and other marketing materials as requested in a fast-paced environment. Duties included HTML and CSS hand-coding, graphic design, UI design, and coordination with other internal development teams.
- Collaborated with multiple visual design style guides and OEM franchise compliancy's to ensure continuity of site design across all consumer touch points.
- Designed web pages, print collateral, and email marketing templates used to create a new corporate image for company re-launch.
- Redesigned and unified marketing materials and collateral that gave rise to a new product image and elevated the brand to a more elegant corporate feel.
- Helped work on an integrated brand strategy, creating visual design concepts, defining product attributes and iconography, to creating detailed visual design specifications for implementation.

BannerView.comWEB DESIGNER

2005 – 2007

- Developed graphic images and effects to achieve design goals for a variety of websites, PPC display ads, and newsletters.
- Worked directly with the client to establish project scope, interaction guidelines, and project timelines.
- Provided competitive market analysis on the website site and proposed suggestions to the design and available functionality.
- Performed routine updates, upgrades and overall maintenance of websites.
- Ensured accuracy of website content by thoroughly editing and cross-checking.
- Designed and developed clients' proprietary website hosting control panel - still in use to this very day.
